CRT regime (a): L native primes vs one big prime, same format and same (jointly sized) m
per training step
setup, once per upload
seconds
log2 q required by the format (single prime)
single prime, n = 40
CRT (a), n = 40
single prime, n = 100
CRT (a), n = 100
single prime, n = 200
CRT (a), n = 200
L=2
